# Dividing income/expenditure between public services and commercial activities

**€ 2,664,836** of income recorded among commercial activities income instead among public service income

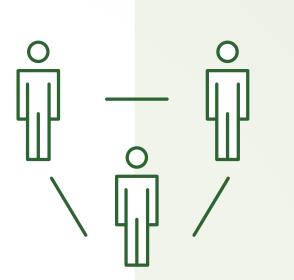

# **Managing immovable assets**

It was not possible to verify which immovable assets Sports Ljubljana actually disposed of and managed in 2017.

- the record of the public institute **not consistent with**the MOL record
- at the Surveying and Mapping Authority as immovable assets temporary operator
- not all land managed by the public institute in the register of fixed assets

# **P** Leasing immovable assets

Relations with the users of sports facilities and premises not regulated

- in at least 34 cases the premises were not rented in line with the law
- undercharged rents and operating costs in the amount of at least € 10,806

## Annual sports programme implementation

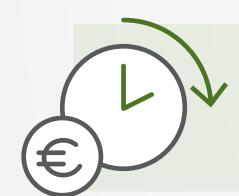

### Sports Ljubljana

- failed to supervise the use of sports facilities and areas
- failed to record all hours the sports facilities/areas were actually used

36 clubs and societies on 21 locations implemented annual sports programme without written agreement on conditions and manner of using sports facilities/areas

not charged at least 3,810 surplus hours of free-of-charge use of sports facilities/areas

clubs and societies were approved at least 333 extra hours of free-of-charge use of sports facilities/areas

# OPINION OF THE COURT OF AUDIT

The Court of Audit expressed to the Public institute Sports Ljubljana an adverse opinion on the regularity of its operations in 2017.

The Court of Audit proposed several recommendations and demanded the implementation of corrective measures.

### **CORRECTIVE MEASURES**

### Public institute Sports Ljubljana must:

undertake activities to **organise work process** in a way public sector employees will **work overtime only in the event of exceptional, urgent or unforeseen circumstances,** but not more than 230 overtime hours per year

initiate proper procedures for renting business premises in line with the legislation

undertake activities for the selection of service providers/contractors in line with public procurement regulations

conclude relevant contracts/agreements with the users of sports facilities/premises regarding the use and payment of costs

divide income and expenditure between public services and commercial activities in line with the decision on establishment

set up a control system for recording usage hours and for charging the use of sports facilities/areas
